EDUCATION

•Bachelor of Technology in Computer Science and Engineering

Gayatri Vidya Parishad College of Engineering (Autonomous)

2023-2027

EXPERIENCE

•JK Paper Ltd. – Summer Intern

Jaykaypur, Rayagada (On Site)

May - June 2025

- Developed a full-stack enterprise web application (IT Service Desk) to streamline internal IT operations.
- Built responsive interfaces using React and backend services using Spring Boot with MS SQL Server.
- Implemented role-based access control, ticketing workflows, and RESTful API integration.
- Worked on deployment configuration, production testing, and system optimization.

PROJECTS

•International Travel Intelligence Platform (Borderless Safety)

A platform enabling travelers to stay legally informed, culturally aware, and practically prepared across borders.

- Developed a platform offering **legal insights, cultural adaptation tools, and real-time travel resources**.
- Implemented **country comparison features, structured data integration, and API-based updates**.
- Integrated APIs for **currency exchange, advisories, and emergency contact systems**.

•Enterprise Energy Management Platform (EnergyMeter)

An end-to-end IoT platform enabling users to track power consumption, manage devices, and control hardware remotely.

- Developed a cross-platform application offering **live telemetry dashboards, historical analytics, and remote relay switches**.
- Implemented **MQTT-based RPC communication, WebSocket data streaming, and automated offline device detection**.
- Integrated backend services using **MongoDB time-series data retention, Supabase authentication, and a custom Python hardware simulator**.

TECHNICAL SKILLS

Languages: C/C++, Javascript

Web Technologies: HTML, CSS, JavaScript, React

DevOps: Git, GitHub

Cloud/Databases: MongoDB, AWS, MySQL

Design: Canva, Figma, Framer

RESEARCH AND PUBLICATIONS

- Patent Publication (Indian Patent Office):** Published “Artificial Intelligence (AI)–Based System for Detection and Response to Aquatic Safety Events and Method Thereof”. Filed January 2026 and published February 2026 in the Patent Office Journal. The system proposes an AI-driven framework for intelligent sensing, localization, and automated emergency response mechanisms.

ACHIEVEMENTS

- Winner – WoW Vizag 2025 Hackathon:** Developed and presented a functional prototype within a 24-hour competitive environment.
- Winner – Hack the Model (April 2025):** Built and optimized a machine learning-based solution under competitive constraints.

ROLES AND RESPONSIBILITIES

- Treasurer and Supporting Member – AsCI (Association of Computer Intellects):** Organized technical workshops, seminars, and hackathons. Contributed to research initiatives and managed budgeting and coordination activities.
- Joint Secretary – Gayatri College Cultural Club (GCCC):** Led event planning, team coordination, budgeting, and communication between faculty and student teams ensuring smooth execution of activities.
